What is Sonocent?
1. Students can upload slides, diagrams, and text notes to each audio notetaking session, and
2. Students are able to capture presentations type text, highlight and transcribe key points for future review.

What is Livescribe?
1. Livescribe smartpens synchronizes handwritten notes with recorded audio,
2. Convert handwritten notes and audio into digital format of note-taking - a more natural and focused method than a keyboard and screen.

What is Otter?
1. Otter notes is a voice recorder that offers automatic transcription,
2. Otter is designed to be able to understand and capture long-form conversations that take place between multiple people.
